OUR MISSION

KONKO S.A.

”

The mission of the company is to meet customer requirements in terms of quality and on-time service, so these values will lead our customers to trust and return for further cooperation to achieve mutual benefit.

”

WHO WE ARE?

KONKO S.A.

We are mid-sized company which provides complex services of steel construction fabrication to customers requiring high quality of machining and welding based on the client's documentation.

We benefit from the decades of experience, serving mainly mining and steel-making industries but also other branches, believing that the most important asset are our employees, who have appropriate competence and knowledge to meet the highest needs of our customers.

HISTORY AND OWNERSHIP

KONKO S.A.

1992 Company was created as a joint venture Euro Construction Poli Poland. The shareholders were: Halbach & Braun Wuppertal - Germany, Vandeput Constructies Zonhoven - Belgium, Prim S.A.- Mysłowice, Poland.

1996 German concern Deutsche Bergbau-Technik GmbH in Lünen acquired manufactural part of Halbach & Braun and Vandeput shares.

1998 The sales department was joined to Euro Construction, and the company changed its name to DBT Polska.

2001 DBT GmbH purchased LONG-AIRDOX, and the scope of production expanded from underground conveyors to roof support, shearer and roadheader components.

HISTORY AND OWNERSHIP

KONKO S.A.

2007 Owner of DBT GmbH - concern RuhrkohleAG, sold its capital to an American concern - Bucyrus International Inc. Name of the company was changed to Bucyrus Polska Sp. z o.o.

2009 New owner - Bucyrus decided to move its production to Ostrava (Czech Republic) and to sell Polish production facilities; one of the Executive Board Members bought part of Bucyrus Polska; KONKO Sp. z o.o has been established.

2013 KONKO Sp. z o.o. bought MANTRA Sp. z o.o. and expanded its business activity with mining cable service and repair; by owning a truck fleet it offered local and international transportation services. At that time, the entity changed its form from LLC to PLC and became KONKO S.A.

2016 KONKO S.A. established strategic cooperation with Capital Group FASING Plc.

CAPACITY

SCOPE OF WORK

KONKO S.A.

STEEL STRUCTURES AND CONSTRUCTIONS

HEAVY TONNAGE construction - single component **30 t unit**

LARGE structures - top order - commercial pavilion construction

L - 25 m, W - 10 m, H - 10 m, weight - 300 t

CONSTRUCTION structures, chutes, conveyors for mining

COMPONENTS of roof supports: bases, goaf supports and canopies

CONSTRUCTIONS for land and water building CONSTRUCTIONS of commercial halls

OVERHAUL SERVICES

Overhaul of mining machines
or its components

RENOVATION SERVICES

Renovation and repairs for mining,
metallurgy, and energy sectors

CABLE RESTORATION

KONKO S.A.

Wissartech Company, operating since 1994,
was acquired in whole in 2017 by KONKO S.A.
with all rights, agreements and personnel.

We hold positive opinions of: Polish Centre of Research and Certification S.A. (PCBC),
iTi Innovative Technologies Institute, Institute of Innovative Technologies EMAG.

Customers for cable restoration services
